# Plans for Children

Helping to stop problems before they start

Plans for Children allows your dentist to provide the most appropriate dental care programme for your child. This means your dentist plans to stop problems before they start, as well as provide prompt dental treatment when necessary.

Plans for Children allows your dentist to tailor your child's oral healthcare to their needs for an agreed monthly payment.

## **More than just check-ups and dental treatment**

Your child's dentist will give you and your child dental advice and information on maintaining great oral health. Visiting the dentist regularly encourages your child to take a positive interest in their oral health. It will also help your child overcome any fears they may have about visiting the dentist. In time they should feel comfortable, lose any possible shyness and feel able to ask questions about their daily dental routine.

This helps them understand how to take good care of their teeth, both now and in the future.

Your dentist will discuss the best dental treatment plan for your child with you.

### **Emergency dental care whenever and wherever your child needs it**

When your child is registered with Plans for Children, they receive mandatory dental injury and dental emergency cover (Supplementary Insurance). This means that your child is covered in the event of a dental emergency, whether they are away from home or on holiday.

Further information, benefit limits and exclusions and full terms and conditions can be found in the Plans for Children Application and Membership Pack.

### **Dental Emergency Helpline at your service**

As part of Denplan's Insurance Services, you'll also have access to Denplan's 24-Hour Worldwide Dental Emergency Helpline that will offer help and advice in the event of a dental emergency.

**Ask your dentist** for details on how your child can become a Denplan patient, or call Denplan's Customer Advisor team on **0800 401 402**

We may record and/or monitor calls.  
Mobile phone charges may apply.

## Questions and Answers

### **Why is preventive care important?**

As a child develops, their oral health can change rapidly. Information and advice on preventive dentistry can help to stop problems developing before they start. In the event that dental treatment is needed, Plans for Children helps to ensure your child will receive the appropriate dental treatment when they need it.

### **How do I register my child onto Plans for Children?**

The easiest way is to arrange an appointment with your child's dentist. The dentist will discuss your child's dental care with you and advise you of the cost of the plan. They will ask you to sign an agreement with them and complete an application form which is then sent to Denplan.
