How does Denplan Care work?

- Your dentist will assess your dental health and agree a programme of preventive dental care with you. Any outstanding treatment needed is usually carried out before your Denplan Care contract begins
- Your dentist then lets you know the monthly fee to spread the cost of your ongoing dental care and treatment
- Your payment is collected by Denplan, and you can choose to pay your fee monthly by Direct Debit, or annually in advance either by Direct Debit, cheque or credit/debit card
- Denplan Care is a contract between you and your dentist that allows ongoing preventive dental care as well as restorative treatment to be provided by your dentist
- Denplan Care includes mandatory Supplementary Insurance, to provide cover towards the cost of dental treatment required as a result of a dental injury or dental emergency
- Please note that there is a registration fee payable. This is a one-off charge, equivalent to one month's fee
- For the dental care you receive under Denplan Care, you are in contract with your dentist. For the Supplementary Insurance element you are in contract with AXA PPP healthcare Limited and you are in contract with Denplan for Denplan Insurance Services
